ASD Awarded Contract for CA Department of Motor Vehicles Administrative Services Division, Requirements Implementation services

Walnut Creek, California - July 2010 - ASD has been awarded a contract for the CA Department of Motor Vehicles (DMV) Administrative Services Division to provide IBM Requisite Pro Implementation Services.

Change to DMV business is an ongoing process with Legislative mandates and DMV regularly re-evaluating business needs in order to meet these goals. As part of defining these business needs and requirements, DMV is configuring IBM Requisite Pro to create and define these business rules.

ASD has led or participated in the requirements phase of the Software Development Lifecycle (SDLC) for state, federal, and commercial projects over the past 15 years. ASD has strong CMMi aligned processes developed to manage and measure the requirements phase of a project. This deep experience combined with professionals well versed with IBM Requisite Pro best practices, will provide the DMV the best value for this contract's objectives.

This is the seventh contract ASD will be executing for the CA DMV. " My mission with ASD is to exceed our customers goal and provide tangible ROI for every project. I am excited to win this contract with the DMV as it aligns with our commitment to build a strong relationship with our customers and continue to provide them the best solutions", said Manu Chatterjee, CEO of ASD.

The IBM Pro Implementation Services contract is for 1 year and under the contract, ASD's Sr. Business Analyst will provide IBM Pro Implementation Services expertise to support the DMV with the implementation of the IBM Rational tools and the integration with other change management and testing tools.

About ASD Global

ASD is a proven global leader in the field of knowledge-based engineering software and complex IT services. Our extensive experience in both the commercial and government sectors helps us to better understand our customers' business — whether it's nuclear power plants, warfighters, or the Department of Motor Vehicles. No matter what the industry, ASD brings practical, real-world solutions to improve the critical operations of our customers.

Government agencies choose ASD because we optimize their critical work processes, significantly improving their efficiency — and positively impacting their bottom line. Our professional staff averages 20 years' industry experience, in both the technical and business arenas. Moreover, each one has extensive experience with not only implementing and integrating a wide range of solutions, but also with utilizing best practices gleaned from a host of

other successful projects. As a result, every one of our customers—whether they are commercial or government—enjoys an immediate return on their investment.

About DMV

DMV is a department under the Business, Transportation and Housing Agency, which is under the direction of Secretary Dale E. Bonner. The DMV licenses drivers; maintains driving records; registers and tracks official ownership of vehicles and vessels; investigates auto and identity-related fraud; and licenses car dealers, driving schools, and traffic violator schools.
